

OF STERLING VALUE....

Is a piece of fine CUT GLASS. It is something which will not wear out and is an ornament when not in use. You will find here several very choice pieces of CUT GLASS marked to sell at prices much lower than their real value; and you cannot make any mistake in the purchase of one or more pieces. CUT GLASS, like Diamonds, always has a market value. Libby Cut Glass, Gorman Sterling Silver

HOUD HAS RECORD OF HUNDRED COYOTES

As the time draws near when the county commissioners will pay the bounty on scalps, the officers are kept busy receiving and counting the ears of coyotes and wild cats, says the Free Press. This morning Judge Castle received a sack of over 100 coyote scalps from the Womach boys in the northern part of the county and Asa Womach, who brought in the scalps, says that practically all of them were caught and killed by a large stag hound that they have trained to run down and kill coyotes. The boys start out in the morning on horseback and it is good-bye to any coyote that comes in sight. The dog has become an expert in killing them, catching them by the back while on the run, and it is very seldom that he does not kill them when he tosses them into the air. If the ranchers of Elko county had more of these dogs the coyote problem would be solved.

GOOD FUTURE FOR BULLFROG ASSURED

RHYOLITE MINING MAN TELLS OF SOME OF THE PROSPECTS IN THAT LOCALITY

Nick Kirchen, selling agent for the Montgomery-Shoshone, is up from Rhyolite. He says that the whole Bullfrog region is looking promising. He said: "The Sunset Mining and Development company is increasing the capacity of its mill to 100 tons daily. Indications are fine in its Eclipse property. The Keane Wonder is also starting up and is making good, running two shifts on ore in sight. We figure that the Belmont Development people will take over the Bull Moose property, about 2 miles north of Carrara. This is a low grade proposition and will be mined with a steam shovel. The Cinnabar people will, within the next few weeks, start in again, and expect to be able to handle their ore at a profit. Mr. Fletcher, who is in charge of the Wonder, is a mining man of experience and ability. He represents the McKenzie interests.

"The Chloride Cliff company is installing a Lane mill, putting in pumps and pipe line and has every confidence in the future of the mine, according to the showings now made. Rhyolite looks good. Chances of being a good camp in the near future are a ten to one shot. While things look a little bit dead at present, there are great prospects. The Original Bullfrog will be reorganized by Milton M. Detch in the near future."

NEW YEAR PARTY AT THE ELKS HOME

Cards have been issued for a rousing New Year's eve party, which will be given by Tonopah lodge No. 1062, B. P. O. E., at their home on Main street, Friday evening, for Elks and their friends.

The feature will be a yama yama dance, but there will be plenty of fun for everybody. Excellent music has been provided, and tempting refreshments will be served, consisting of hot edibles and cold drinkables. A consignment of devilish noise-makers has been imported for the occasion, and the New Year will be ushered in in characteristic manner.

LIBEL CASE MAKES STEADY PROGRESS

DEFENSE BEGINS THE INTRODUCTION OF TESTIMONY THIS MORNING

The state rested its case at 11 this morning in the trial of W. W. Booth, editor and manager of the Bonanza, and the defense, waiving its opening statement, placed W. M. Gotwaldt on the stand. The witness admitted writing the editorial in question. When Attorney Detch sought to show that there was no malice in the article, but that the heading had been misinterpreted by the prosecution, the state's attorneys objected and argument and citation of authorities consumed the balance of the morning session. This afternoon the argument on the objection continued for some time, when the taking of testimony was resumed. There is little possibility of the trial ending today, unless a night session is held.

WENDOVER COOK ATTEMPTS SUICIDE

A telegram, received from Wendover last night announced that the cook in the Western Pacific eating house at that place had attempted suicide yesterday evening by shooting himself. The bullet entered the abdomen just below the heart, and ranging upwards, came out of his back just below the left shoulder blade. The man's name is Charles Hager and he had been cooking for the company for some time. He would give no reason for his desire to end his life. At latest reports he was still alive, but it is believed that he will die. Independent.

CONTRACT LET TO DEEPEN THE BONANZA

SHAFT WILL BE SUNK FROM THOUSAND TO FIFTEEN HUNDRED LEVEL

John Magee, general manager of the Tonopah Bonanza Mining company, has let a contract to deepen the working shaft. The bore is now at the 1000 foot point and it will be sent to the 1500 as rapidly as possible. Already two shifts are at work and a third will shortly be put on. When this contract is completed the company will do lateral work. The old steam hoist on the property was recently replaced by a powerful electric plant.

SCHOOL BELLS WILL RING NEXT MONDAY

(Continued from Page 1)

satisfy one or more of the requirements but who are lacking in some essential. They have finally found two teachers, either one of whom will be a decided acquisition to the teaching force. An offer has been wired to one of them, and if she cannot accept, the other will be employed. It is expected that the work of the new teacher will begin by January 10, at latest.

The work predetermined for the new teacher will be either vocal music, drawing and violin, or vocal music, physical education and violin. All of these subjects should be given in Tonopah schools, as they are in all other modern schools, and it is fortunate that the school authorities have found it possible to add these courses to the curriculum with absolutely no additional expense.

The display of school work which attracted so much attention during the teachers' institute was found to be strictly worth while and immediately after the institute the teachers determined to repeat their efforts in this line on a more elaborate scale and prepare for a "Patrons' visiting day," about the middle or end of February. At that time, if it is deemed advisable, a parent-teachers organization will be formed to work for the good of the Tonopah schools.

Other plans are being developed for the improvement of the schools and will be made public when completed. One of the big problems now confronting the school authorities and one which must be solved by the people of our city, is the great problem of providing sufficient room for the schools for the coming year. Much might be said concerning this need, but just now the important thing is to get busy in devising ways and means.

SUNDAY SERVICES

Christian Science Society—Services at 11 a. m. and 7:30 p. m. Subject, "God." Sunday school convenes at 9:45 a. m. The reading rooms are located in the church parlors and are open Tuesdays, Thursdays and Saturdays from 2 to 4 p. m. Testimonial meetings are held the second and fourth Wednesday of each month at 7:30 p. m., the next meeting being January 5.

Presbyterian Church.—Sabbath school and morning service at the regular hours. Christian Endeavor, 9:30; first meeting in new year; subject, "Consecration." Evening church service at 7:30. New Year service theme, "A New Experience." Why is a new year necessarily new? Why is it, in many cases, the new year no, a new year. What are some of the advantages in the new year? Are the experiences of the new year merely a repetition of the past? How to make a really new year out of the ensuing one. These are some of the things for our consideration at this service. Regardless of who you are or what church relations you have, we very cordially invite you to come and be with us in this the first service of the new year. This church is yours—feel at home in it. Baritone solo, selected by Prof. R. D. Kanause, Rev. Ralph W. Bayless, pastor.

St. Patrick's Church.—New Year's day is a feast of obligation in the Catholic church. The duty therefore of every good Catholic is to hear mass tomorrow. In order to accommodate those who have to work, the first mass will be said at 7:30 and the last at 9 a. m. The children of the junior choir will sing at 7:30. It is also communion day for the children of the Holy Angels sodality. Sunday, January 2, first mass at 8 a. m.; second mass at 10 a. m.

The 10 o'clock mass will be a high mass, during which the choir, under the direction of Prof. Kanause, will sing Leonard's mass. The "Offertory" will be the beautiful "Ave Redemptoris" in four parts,

GREAT WESTERN NOW NEARLY UNWATERED

DETERMINATION WILL SOON BE MADE AS TO WHETHER TO SINK OR CROSSCUT

The Great Western company is still bailing water and the 1150 level will be reached in about a week. The appearance of the bottom of the shaft will determine whether or not it will be deepened or a crosscut run.

Manager Magee is planning extensive work on this property, which was recently turned by Mr. Zadig, Mr. Joseph and others in control to the Greenwater Mining and Smelting company, a concern controlled by the Schwab interests.

PRESENT MINING REVIVAL NOT A TRANSIENT BOOM

WORLD'S NEED OF MANY METALS ASSURES A STIMULATION OF INDUSTRY

The present mining revival in the west is not a transient boom, but a business-like exploitation of the metal deposits that enrich the land, declares the Mining and Financial Record. This activity shows every indication that it will increase rather than diminish in the years to come. Various factors contributed to bring about the larger movement in mining; and among these may be mentioned the insatiable demand by Europe for more gold. The dearth of the yellow metal abroad naturally has directed greater attention to gold mining and stimulated the search for that metal.

The higher prices for copper, lead and zinc, occasioned by war needs, have promoted the mining of these products of the earth to a degree unprecedented in the history of the world.

Even the rare metals, such as tungsten, uranium, molybdenum, etc., are in immense demand and are constantly advancing figures. They are being mined on a steadily broadening scale, particularly in Colorado, where they abound.

Silver has not yet come into its own, although the usual activity prevails in the white metal districts. However, the belief that European nations will be compelled to give a much greater recognition to silver as a money metal after the war lends encouragement to the situation.

Generally favorable production conditions have been brought about by improved metallurgy, more especially in the use of cyanide and methods of concentration, separation and flotation. Such scientific improvements have made possible the mining of low grade ores that formerly could not be handled at a profit. As a result many abandoned mines that could not be worked profitably under the old treatment methods have been reopened and are making money for their owners.

The western mining field offers many attractive opportunities for the investment of capital. There are numerous meritorious mining properties in proved districts that are now lying dormant because the owners lack money for development and equipment purposes. These properties can be leased on reasonable terms, with option of purchases at prices that are decidedly moderate. It behooves investors to take advantage of such chances to add importantly to their bank rolls.

CARD OF THANKS

We, the family of the late James Edward Kearns, residing in Tonopah, take this means of evidencing our appreciation and gratitude to the many friends who were so comforting in our time of bitter sorrow. MRS. J. E. KEARNS, WM. KEARNS, MRS. A. M. RITTER. Adv. D3111.

TEMPERATURE REPORT

Highest temperature yesterday, 18; a year ago, 42. Lowest temperature yesterday, 6; a year ago, 32.

After exhaustive researches in Paris a famous French scientist has recommended a diet equally divided between meats and vegetables as the best for working people.

Attend the yami yami party to be given New Year's eve by the Pythian Sisters in the Airdome. You are assured a cordial welcome. Adv. D2913

with solos by Miss Muriel Robb, Zeph Ethier and Prof. Kanause. Sunday school at 1 p. m.; evening services at 7:30. Prof. Kanause will sing the "Emmanuel," by Paul Rodney. J. Dias, pastor.

PERSONAL

ED MALLEY, JR., returned to his home in Carson City this morning. LLOYD MAYER came over from Goldfield this morning to spend New Years.

BARNEY SLAVIN was a passenger on this morning's northbound train.

TAKING ADVANTAGE OF TEACHERS' PENSION ACT

At the office of the superintendent of public instruction it was learned that better than two-thirds of the teachers who have the right to reject the teachers' pension act have assented to it.

There are about 225 new teachers that come under the act automatically, as under the ruling of the attorney general it is compulsory. There are in all about 650 teachers employed in the public schools of the state, and those who have the right to reject now, and do reject, cannot in the future avail themselves of any of the benefits of the act.

It is expected, however, that when the act is thoroughly explained to all, that there will be few, if any, rejections. Appeal.

SPARKS LANDMARK DESTROYED

As a result of a fire which occurred last evening the B. & W. hotel, one of the landmarks of Sparks, the first hotel structure ever erected in the city, is a total loss, and that the adjoining buildings were not destroyed is due only to the heroic work of the boys of the volunteer fire department, assisted by citizens. Tribune.

Will sacrifice—need the money—my 1915 Harley-Davidson motorcycle and side car and extras, nearly new, for \$150; cost over \$400. George Jarvis, Goldfield, Nevada. Adv. D2913

AMUSEMENTS

BUTLER THEATER

A happy and prosperous New Year to all.

The feature tonight at the Butler is one of exceptional merit, being a Fox production, presenting Frederick Perry, supported by a distinguished cast of players in "The Family Stain," founded on Emile Gaboriau's celebrated detective story, "The Widow Le Rouge." Frederick Perry, who plays the leading part, is one of the most distinguished actors of the present day, being for many years a Broadway favorite. Six persons in high life are accused of killing the Widow Le Rouge; a detective is put on the case and there commences a search for the criminal. Before the story ends six important persons are suspected and the situations that arise are fascinating and thrilling to the highest degree.

The question as to the identity of the two young men, around whom the story is written, is shuttlecocked in such a way to make it impossible to know who's who until the very finish of the story. Included in the cast is Thomas O'Keefe, famous on the American stage and in Broadway productions, it being a well known fact that he remained at one time for three years on Broadway, never missing a night; also Walter Miller, one of the greatest of matinee idols, whose fame on the screen is known from one end of the earth to the other.

The preliminary reel will be a Vitagraph comedy.

Tomorrow, "The Circular Staircase," a Selig Red Seal play in five gripping reels, together with a Chaplin comedy.

Sunday, "The Wild Goose Chase," a Lasky production with Ina Claire, Broadway's daintiest star, in one of the most charming romantic comedies ever written by Wm. C. De Mille. Although Miss Claire is under contract with the Lasky company, she will continue her legitimate stellar career as a Broadway celebrity.
